

National Emergency Medical Services Week May 17-23

Salute
to

The Future of Western Lane Ambulance District

From May 17th through May 23rd we celebrate EMS week and acknowledge members of our Emergency Medical Services teams that provide lifesaving medical care to those in need 24 hours a day, seven days a week. On behalf of our board of directors, we recognize and applaud the outstanding services provided by our team at Western Lane Ambulance District especially as they put their lives on the line to serve us during the Coronavirus pandemic. And, on behalf of our front-line providers, I want to thank you, our public, for your support and understanding during this difficult time. We truly will get through this together.

Looking ahead to the next several years, our District faces several challenges as our call volume continues to increase while our population both grows and ages. Last year we responded to 3,843 calls, a volume that was more than 9% over the prior year and twice the call volume we had in the late 1990's. At the same time, reimbursements from Medicare and Medicaid and from property taxes are not keeping up with volume increases and with the inflationary increases in cost in general. This makes it especially important that we work to get the most from the resources we have in order to balance our budget and provide resources for replacement of equipment including ambulances. We are committed to continue to operate efficiently and effectively. We will do this is by continuing to hire and retain quality employees, those that know their jobs, and know the area. We will also continue to partner with other agencies to better utilize our combined resources. To that end, Western Lane Ambulance District has partnered with Siuslaw Valley Fire and Rescue to share administrative services for both Districts. We are hopeful this model will create efficiencies in our operations, but the long term benefits to the community will also include improved coordination of services and cross training for

emergency responses. We have partnered with Peace Health and the Peace Harbor Medical Center Foundation to create the new Mobile Integrated Healthcare provider service. Mobile Integrated healthcare aims to deliver high quality and more cost-effective medical care

by coordinating resources among emergency medical services providers, hospitals, in-home care providers and insurance companies. We have also recently partnered with community organizations and the Oregon Health Authority to create a new Mobile Crisis Response team to aid those experiencing significant mental health crisis issues.

Regardless of the challenges we face, the vision for the Western Lane Ambulance District continues to be to "provide superior and compassionate services to each and every community member through a forward thinking, highly trained team of professionals". We will continue to partner with you, our community members, to meet the vision of Western Lane Ambulance District.

Sincerely,
Rick Yecny, Board President
Western Lane Ambulance District

A note from the Operations Chief

"To provide quick, efficient, professional emergency medical services, transport, and community education with the highest standards of excellence." This has been Western Lane Ambulance District Mission statement for the past 4 decades, realizing that we will never be perfect, it is the pursuit of perfection that drives our organization to excellence. I'd like to take the opportunity to update the citizens of our District how we strive for that excellence. Currently, we have 15 full time Medics to provide care, of those 15 employees, 10 are critically care trained to give an even higher level of care versus the standard certified Medics. Critical Care Paramedics are trained in Hemodynamic Monitoring, Ventilator management, expanded IV medication infusions, as well as more education on human pathophysiology. The dedication and training that goes into this is an immense undertaking. The employees demonstrate this dedication daily, they truly want the best for their patients and work hard behind the scenes to pursue that perfection.

To further our patient care, the district has always strived to have the best medical equipment and ambulances available. To this date, our fleet consists of 2 transfer ambulances, 3 fully equipped first out ambulances, and a Rescue vehicle for sand dune patient extrications.

Our Public Education programs were very active over the past year in educating the community in stroke, heart, and trauma prevention programs. We continue to offer monthly CPR classes, this year we added American Heart

Association CPR so that we can offer a wider range of classes to the community. We also provided child restraint safety devices to community members and educated on how to ensure they are properly placed in vehicles. Continuing forward, Public Education is a priority for a healthier community.

Lastly, an update on the Mobile Integrate Health Program (Community Paramedic). In conjunction with PeaceHealth, we are entering our third year with this program. The Mobile Integrated Healthcare employee has been very active in treating patients that have been recognized for potential risk of 30-day readmissions, high Emergency Department utilizer patients, or high EMS utilizer patients. The MIH program has also been very successful bridging healthcare gaps and needs in Palliative care and Home Health Care. The program has been very successful bridging gaps in the local healthcare system.

Matt House
Western Lane Fire and EMS Operations Chief

Letter from Matt Danigelis, MD

As the medical director of the Western Lane Ambulance District, I have had numerous opportunities to observe the EMTs and paramedics. These providers consistently demonstrate competence, efficiency, and an empathetic approach to patient care. Their dedication to the goal of providing the best possible care is evident on a daily basis. Whether participating in quality improvement measures, community education, or pursuing critical care certification, which the vast majority of our medics have achieved, their dedication to their craft is without question. As the coronavi-

rus pandemic spreads throughout the country and indeed the world, our EMS system has taken the initiative in best preparing our district for the challenges that lie ahead. It has been my privilege to serve as the medical director of an ambulance district that is committed to best serving the needs of our community.

Sincerely,
Matt Danigelis, MD

Matt House
Operations Chief
23 Years

I have been with Western Lane Ambulance District for 23 years, starting as a part-time employee to recently being promoted to Operations Manager. Having been in every facet of the District has given me a great perspective of past, current, and into the future for Western Lane Ambulance District. Most importantly, I have the pleasure of sharing life with Melissa, my lovely wife. For the past 18 years she has stood by my side and encouraged my professional growth and has been my biggest supporter.

After growing up in Corvallis and completing my formal education at Oregon State University, I moved to Florence to take the opportunity to manage the local Spruce Reitz store. It was in Florence that I met my wife Jana. We have two wonderful children, three grandchildren, a dog, many cats and a bird. Currently I work as a Commercial Relationship Manager with Oregon Pacific Bank. I've been with the bank since 1998. In my spare time I enjoy cycling, running, golf and bowling. I have served on the board of Western Lane Ambulance District since 2005. Prior to that I served on their strategic planning and budget committee and budget committees. I have also filled the District's seat on the Florence Urban Renewal Committee. I have served on that committee since 2007.

Board of Directors

John Murphey
Board Member
1 Year

Lifelong resident of Florence, I believe in giving back and supporting your community. I have been busy over the years with activities such as City of Florence Planning Commissioner, Board Member for several organizations, and served on many community committees. As an active Kiwanis Member and Past President, I have been often recruited for different fundraisers or community services and does so with a smile each time. He helped form the Siuslaw Athletic Booster Club and helped or gave the construction of Miller Park. I have finally learned to slow down a bit on the activities, so I can fulfill my love of riding! Most likely can be found riding one of my Harley Davidson's with my wife in the sidcar and/or friends on the open road. I enjoy spending time with my family, Uncle Leo in picture with me. After my cross-country journey to Nova Scotia a few years ago, I am plotting and planning the next adventure.

I have been a nurse for over 40 years. I also run two businesses from my home. I have learned greatly in this position, Director on the Board for Western Lane Ambulance District, over the last five years. I have held high my knowledge that we have GREAT Ambulance District and that the service that is provided to this community is unsurpassed. I strive to uphold that standard for our community through serving on the board. WLAD is something to be very proud of. Honesty and Integrity are the most important standards that I hold for myself, and the people and organizations that I work with.

Happily married for 26 years to my best friend. We have two daughters who turn 21 and 18 this summer. Spending time together is what we love to do the most. I also volunteer for two organizations at different times during the year: South Willamette Valley Honor Flight, which takes veterans back to Washington DC to visit their memorials, and The Concord Blue Devils Drum and Bugle Corps as a medical support to its staff and members during their summer tour across the country. I am so pleased to have found a career I absolutely love. It is especially great serving this district with an amazing staff and having incredible public support.

Community Support Team & Mobile Crisis Response Members

The Community Support Team responds to the scene of various emergencies in the greater Florence community (including up-river communities like Mapleton and SwissHome-Deadwood). We offer support and guidance to community members who find themselves faced with unexpected traumatic situations. We provide emotional support, transportation if needed, as well as community resources and follow up to help our community members navigate their way through difficult and unfortunate times. Some of our written resources, including booklets on grief, children's grief, community resources and first responder stress, are available here on the website for the general public. Please feel free to download any of these resources or contact us at the fire station at (541) 997-3212. We will make every effort to return your call by the end of the business day.
